

Sahara Whitepaper

2023 - 2024

FOREWORD

Sahara Coin, unlike many cryptocurrencies, turns its investments into real projects. Established companies and brands bear the name and logo of Sahara Coin. The payment method of these companies and brands is Sahara Coin.

Sahara Coin aims to combine all projects into one. It includes Payment systems, coins, tokens, airdrops. It aims to integrate all tasks in a single network and provide convenience to users.

Investments are protected and offered to the public. In this way, financial support is provided for Sahara Coin. Furthermore, users holding Sahara tokens will have a say in Sahara Coin, through the systems that are going to be setup in the future.

The current goal of the Sahara Coin team is to present the project to many users. Then, when all plans are finished, financial support will be provided to the stock markets and the team will work towards the target of \$0.01.

It is planned to achieve these goals with several many projects between 2023 and 2024.

Sahara Coin team does not aggrieve their users nor steal their investments. Sahara Coin can be easily bought or earned from Sahara's Own Launched Projects but in future it could be bought from many contracted exchanges.

Sahara Coin can be easily traded between users.

"Your investments are safe with Sahara Coin. More than just a cryptocurrency."

WHAT IS SAHARA COIN?

Sahara Coin was created on March 23, 2023, by Muzammil Zeeshan as a BSC Mainnet on the Binance Smart Chain network. In the first period, Sahara Coin entered a few months of intense work to conduct its projects, and in this process, they created their first two projects: the Sahara Mutual Funds investment application, and Sahara Coin Mining Application. At the same time, it actively started Snappy Application to Distribute Sahara Token ultimately. All of these applications are published on Google Play Store. We are Working and improving our Projects to Reach 1 million users in a short time. Sahara Coin will be listed on different exchanges within next 2 Years. After Listing on Exchanges, the record value increase of Sahara Coin will be documented as 1900%. The game is going to be created with many entertainment features, including the Sahara Token as Rewards, and will be released on the Google Play store as soon as possible. In this way, Sahara Coin will give rewards to the users who performed the tasks in the applications. Advertising revenues provided financial gains to the projects.

BSC <-> Sahara <-> BEP20

Sahara Coin will be used as a currency in SHC Token projects and applications. Sahara Coin is headquartered in Pakistan and performs its actions the safest.

Sahara Coin works with the BSC and BEP20 networks. These two networks can be traded on exchanges.

WHAT IS THE PURPOSE OF SAHARA COIN?

Sahara Coin is going to make agreements with many genuine brands and institutions to add value to this investment while making the best use of the asset.

These institutions and brands will carry the name of Sahara Coin and will even add more value to the investment.

In this way, in future it will be ensured that the investment is fully protected by preventing manipulation events on the stock exchanges. Besides virtual projects, Sahara Coin also plans to act as an intermediary with various well-known brands and institutions by creating many real projects.

Sahara Coin has signed agreements with many advertising agencies and generating revenue from mobile applications and games. This income is used as a fund to serve Sahara Coin investors better while developing Sahara Coin projects. Apart from this, Sahara Coin mining is also ongoing and being done.

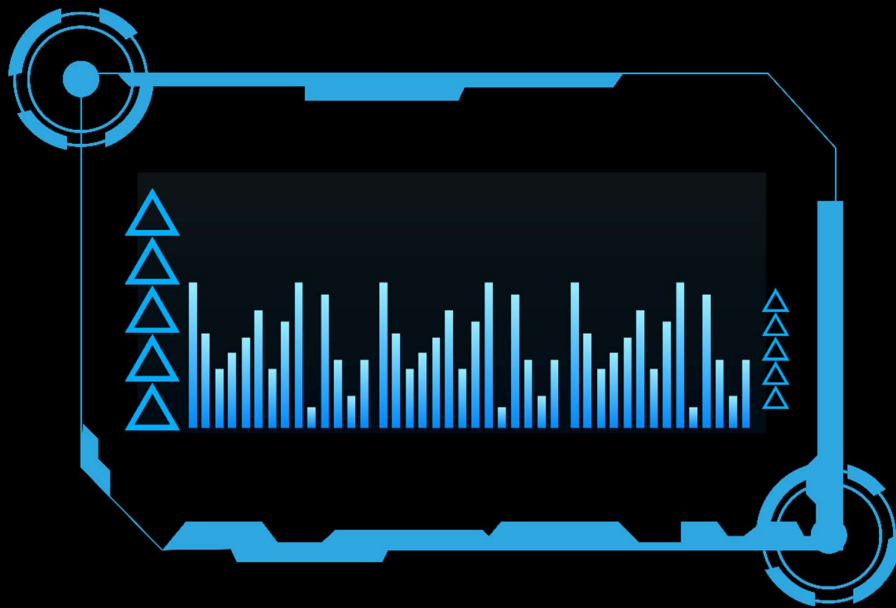

In this direction, we are working to develop the project no matter what happens without deviating from the path we are following. Improvements are being made slowly and surely to add value to our investors' rights, assets, and the time they have gave.

PLANNED TARGETS

Blockchain networks and the crypto market are developing day by day, and they can be seen in different areas. Unfortunately, the number of opposing teams and fake projects are increasing in virtual money and crypto, which is now an indispensable part of our lives.

Sahara Coin has made serious payments to keep its users away from such projects. It has prove itself in the crypto field, and provide confidence to users with real projects. Our goal is to provide a substructure that is built with conviction. Our goals are to carry out activities that will attract users and strengthen our audience with certain airdrop draws every month.

In order to protect SHC Token from manipulative movements in the stock markets, the tokens in the market are burned at the end of the month. Our goal is to protect the Sahara Coin price range, with sudden drops and always moving up. We use our social media accounts actively in order to help our users.

PROJECTS

Sahara Coin works to protect investors' assets and guarantee that the project is potent and own infrastructure. In this way, the project will contribute to the community and develop its ecosystem without being dependent on anyone.

Except for many other virtual projects, the Sahara Coin team works for many tangible projects in real life. Sahara Coin will enable the purpose of using cryptocurrencies in different areas, hence presenting cryptocurrencies to future generations in a better way.

Plans are being made to ease states to accept Sahara Coin projects in their countries. The first Mutual Funds Investment Application (Sahara) was also setup in this direction.

SAHARA MUTUAL FUNDS INVESTMENT

This one is Sahara's First Mutual Funds Investment Project. At Sahara Investment our commitment is to give people a big and great returns on their investments. We have proved ourselves with our work and gave higher returns than any other institutions.

SAHARA COIN TEAM

Unlike other projects, Sahara follows a path and is superior to other projects in this context. The Sahara team funds the project. It makes preliminary agreements with exchanges and obtains many trust certificates. The Sahara team is not responsible for the SHC Token other than the amount of Sahara Coin allocated. The Sahara Coin team creates the website and roadmap information. Users and investors control all systems outside of this process.

What are the Responsibilities of the Sahara Team?

The Sahara Coin team develops projects and provides investors with an environment of trust. They implement marketing strategies for Sahara Coin and make deals with new exchanges.

The Sahara Coin team manages websites, social media, and many projects. There is no manipulation in the stock markets, and an open market is created.

TEAM: <https://www.saharaglobal.online>

How Much Sahara Coin is Allocated to Our Team?

The amount allocated to the Sahara Coin team is 500 million coins. With the BEP20 network, this amount will never change. Projects are carried out with this quantity. With new crypto exchange agreements, some amount is transferred to these exchanges. Exchanges can use it for airdrop rewards. Ensuring the continuity of the projects shows that the team members have a say on Sahara Coin.

Who are Sahara Coin Delegates, and What Are Their Duties?

Delegates represent Sahara Coin in their country of residence. As part of the community, their task is to assist users on social networks in their native language.

Their mission is to promote the development of Sahara Coin in their community, listen to other people's ideas, and relay problems to us.

They earn a certain amount of Sahara Coin when they do the given tasks.
